

# Free Barn Cats

**We have healthy feral and semi-feral cats in need of new outdoor homes!**

These cats make ideal residents for farms, horse stables, barns, and other suitable locations with outdoor shelter options.

The cats are spayed or neutered, vaccinated, and ear-tipped. (FeLV and FIV testing available upon request and at the adopter's cost.) Barn cat adopters are responsible for providing daily food and water, shelter from the elements, and long-term veterinary care.

The cats will need a brief period of adjustment. Guidance and help will be provided for the relocation process.

**For more information:**

**Visit the Greenwood County Animal Shelter at 2820 Airport Road, Greenwood, SC**
